2027 Spring Ledge Farm Shares

One of our most popular CSA (Community Supported Agriculture) programs!
The Farm Shares CSA is a flexible choice model of CSA.
For information on all of our CSA programs,

Buying a Farm Share at Spring Ledge is a form of Community Supported Agriculture (CSA). CSAs work when a customer pre-purchases shares to help with the farmer's annual start-up and maintenance costs.

This helps the farmer during the "off season", when there is essentially no product to sell and little cash flow, but still plenty of expenses required to keep the farm running. The farm uses these Farm Share monies as mini loans. The customer loans us the money, then the farm pays back that money, plus a percentage, in the form of fresh plants, fresh produce or anything else that the farm sells.

Farm Shares purchased
by January 15th, 2027 add 10% to amount loaned;
by February 28th, 2027 add 5% to amount loaned;
by March 15th, 2027 add 3% to amount loaned.

Since Spring Ledge offers everything from hanging baskets to perennials and arugula to zucchini, this particular Farm Share CSA model uses store credit. It differs from a traditional CSA (of which we also offer in the form of a Flower CSA) in that the customer makes the choices about what products they receive, meaning they can come in anytime and buy what they like with the amount of money they invested. All this helps keep dollars in the local economy.

Farm Shares are issued in the form of pre-purchased credit at the farm, in value increments of $100. We recommend Farm Shares be purchased with cash or check. If purchasing with a credit card or online, there is a 3% convenience fee. You may purchase as many shares as you wish. We will issue you a SLF swipe card containing your farm share monies. You may redeem this credit starting March 30th, 2027. Use it during the entire season for any items available at Spring Ledge Farm. Farm Shares do not expire! Any extra credit remaining at the end of the calendar year is passed through to the next year.
